Suggestions/ comments:

<ul style="list-style-type: none">• Students should have the choice to choose their credit course, compulsion should not be there for it and if someone is getting a year drop, so the college being autonomous an extra chance should be given if possible so that a year is not wasted
<ul style="list-style-type: none">• Proper time-table is very necessary for lectures and practicals and official communication regarding holidays could be way better and bold. Personal messaging to students should be avoided and clear-cut official communication should be made. This was the biggest problem faced but other than that, everything else was good! As previously mentioned, more of application Q/A based teaching must be done for a better readiness in competitive exams.
<ul style="list-style-type: none">• Office staff needs to treat students politely. They should reply to mails. Queries should be solved on time. Any office related work feels stressful for students. Administration should aim at making these procedures clear and easy.
<ul style="list-style-type: none">• I think Inter-departmental programme like Food Festival conducted by Dept of Botany and Statistics will bring more opportunities for students to understand each other course work and can improve collaboration and team work among them. Not just cultural programmes but educational as well. Thank you.
<ul style="list-style-type: none">• Need placement for every student
<ul style="list-style-type: none">• Expand opportunities for research projects, collaborative research with faculty
<ul style="list-style-type: none">• Please provide a campus placement for Bsc student also.
<ul style="list-style-type: none">• Good
<ul style="list-style-type: none">• They don't cooperation students about there extra curriculum like sports . They gives preference to there lecture only
<ul style="list-style-type: none">• College should provide more industrial visits
<ul style="list-style-type: none">• Frequent interactions with students and teachers
<ul style="list-style-type: none">• Excellent
<ul style="list-style-type: none">• Based on my observations and experiences at the college, I have a few genuine suggestions for its overall improvement: 1. Balance Between Theory and Practical Knowledge: While the college excels in many areas, there seems to be a gap between theoretical teaching and practical application. It would be beneficial to revisit the curriculum guidelines to ensure a more balanced approach, catering to the needs of all students, especially those who are average or below average in their studies. 2. Reconsider EVS Exams: Instead of traditional exams for Environmental Studies

Anshu

VIDYAVIHAR MUMBAI - 77.

(EVS) that focus solely on theoretical knowledge, it would be more impactful to have practical exams. Assessing students based on creativity, efforts, and real-world applications would provide a more holistic understanding of the subject.

3. Streamlined Courses and Timetables: Courses like "vanillakart" and any other new additions should be communicated to students well in advance, preferably before the start of the academic year. This will allow students to plan their schedules effectively, especially those preparing for entrance exams or juggling other commitments.

4. Consolidate Clubs and Committees: While clubs and committees add value to student life, having too many with overlapping events can be overwhelming. Consider establishing a main committee responsible for coordinating and overseeing events across departments. This would streamline the process, reduce conflicts, and allow for better planning and execution of events.

5. Enhance Awareness of College Rules and Regulations: It's crucial to ensure that students are well-informed and take college rules and regulations seriously. Implementing regular orientation sessions or workshops can help in reinforcing these guidelines and fostering a culture of responsibility and accountability among students.

These were few of the suggestions.

- There is a lot of improvement in the college, the college has introduced us to many courses has kept various workshop and seminars on different different topics
- Need to have some instruments in labs for NMR, FTIR, etc
- Research ethics course should be taught in semester 3
- Some professors really need to prepare themselves before engaging the lectures.
- No improvement needed
- Like I've mentioned earlier student should be given more freedom to learn things their way and more entrepreneurial events should take place in campus.
- Students are lacking in competitive exams. They need guidance about it.
- Please add more access to instruments so that students will be well prepared and can create a valuable base of doing things which they are learning in theory
- There are lack of co ordination in some departments like physics department , bio chem dept etc and lack of enthusiasm to improve students life.
- Everything was excellent about the college

<ul style="list-style-type: none"> • College has already improved so much. Our college offers master's student internship that's very amazing thought. Because we developed ourself in that internship. We learned so many things in the internship.
<ul style="list-style-type: none"> • More focus should be given on Student's understanding, imparting curiosity/fun in learning rather than just exams. One day Iv for all the students to see and learn the instrumental techniques which are not available in college. There should be Competitions between the departments to increase the competitiveness, confidence among the students. Cultural fests/events at a bigger scale like other colleges in the campus.
<ul style="list-style-type: none"> • Please improve placement opportunities for students
<ul style="list-style-type: none"> • It would be helpful if college can add business related courses or something related to industrial culture or work .
<ul style="list-style-type: none"> • No doubt it's the best college but they have improved more in recent time conducting seminars on mental health
<ul style="list-style-type: none"> • Do change the instruments of physical lab
<ul style="list-style-type: none"> • The college's environment is very good
<ul style="list-style-type: none"> • I've visited other colleges with great names but the facilities our college has no other colleges can provide
<ul style="list-style-type: none"> • This college is as best as it gets!!
<ul style="list-style-type: none"> • More instrument facilities
<ul style="list-style-type: none"> • College is excellent
<ul style="list-style-type: none"> • Add more appropriate and entrance exam related content in syllabus
<ul style="list-style-type: none"> • Plz remove vanilkart and add something which is interesting ...
<ul style="list-style-type: none"> • Increasing opportunities for hand on learning, internships and industry collaborations.
<ul style="list-style-type: none"> • Increasing opportunities for hand on learning,internship and industry collaboration
<ul style="list-style-type: none"> • Classroom infrastructure can be updated. more use of ppts, and various interactive methods of learning
<ul style="list-style-type: none"> • I feel that the syllabus should be taught in more detail and without skipping the concepts because it will help students for their interlinking further studies courses which are on high level so make base clear of students. Over all the professors are so supportive and motivating and friendly to students they help students a lot for everything and cleanliness is maintained in class.
<ul style="list-style-type: none"> • Bring more practical subjects

<ul style="list-style-type: none"> • I think young teachers should be appointed in Commerce Stream of KJSSC which could bring new energy and new ideas
<ul style="list-style-type: none"> • I don't have any suggestions for improvement of college, as I find kjssc a perfect college for the youth , kjssc can help youth by providing Knowledge, skills , value, partical experiences, new learnings, field visits and various educational and study related facilities for the growth of student's bright future through various forms like studies, seminars, guidance, non curricular activities, also kjssc takes care of students mental health
<ul style="list-style-type: none"> • Excellent
<ul style="list-style-type: none"> • Best institute have learnt ample of things. No suggestions everything's perfect. Would love to return in this college as alumini.
<ul style="list-style-type: none"> • Provision of more internship/practical experiences. Participation in a particular sport must be voluntary in the 1st and 2nd years of graduation. I understand that physical health is important. But not understanding student's personal health related issues and hence failing the student is injustice as it reflects in their marksheet.
<ul style="list-style-type: none"> • It is amazing college with cooperative teaching members
<ul style="list-style-type: none"> • Vanillakart should not to be introduce in curriculum for students. It is just irrelevant they have told much before joining vanillakart this and that and now they have done 0 value addition in our knowledge.
<ul style="list-style-type: none"> • Extra credit courses shall be made optional in my opinion. They were good but felt inflexible.
<ul style="list-style-type: none"> • With regard to education pattern there is everything right as per my opinion but they should not over burden students by providing extra curricular activities and multiple assignments.
<ul style="list-style-type: none"> • Arrange college fests outside the seminar hall. Reach out in the campus
<ul style="list-style-type: none"> • Not adding unnecessary credit courses that do not contribute towards learning, helping students to prepare for internals and considering their job and extra professional studies while checking attendance.
<ul style="list-style-type: none"> • Regarding Education It's Very Good But Genuinely Saying Please Focus On Infrastructure As Well Like Benches, Boards, Camera In All Class Room Etc... Update & Have So Many Courses Which Are Important For This Generation Like Social Media, Digital Marketing Etc.
<ul style="list-style-type: none"> • 1) Infrastructure (specially benches)is very poor of the college. 2) Faculties should be monitored. 3) Lift for students (specially for 4th and 5th floor class)

<ul style="list-style-type: none"> There no need for improvement. I'm happy and satisfied with the services.
<ul style="list-style-type: none"> KJSSC is well maintained, please keep it like that for future students also
<ul style="list-style-type: none"> I learned a lot form college thank for all
<ul style="list-style-type: none"> College is doing great no improvement is needed
<ul style="list-style-type: none"> Add more practical things to this course rather than just being theoretical.
<ul style="list-style-type: none"> Best college
<ul style="list-style-type: none"> Improvement in the quality of fans
<ul style="list-style-type: none"> Everything is best
<ul style="list-style-type: none"> Great college and also very good professors
<ul style="list-style-type: none"> Please add more fans or atleast repair the current fans in the classrooms
<ul style="list-style-type: none"> As per my point of view, KJSSC is a college where a individual student can grow their abilities in every field. Several courses are available for students to improve their overall experience in college.
<ul style="list-style-type: none"> Everything is fine / best /excellent whatever you say. College faculty is superb, they change as per the requirements . Best college I would say .
<ul style="list-style-type: none"> The management and teachers are all perfect, the way the teachers help us to do various activities and motivate us to participate makes the college perfect and as per my opinion there is no need for any improvement
<ul style="list-style-type: none"> I liked the college very much, I am very happy that I completed my graduation from kjssc Somaiya University
<ul style="list-style-type: none"> Need to take a project which increases students moral and confidence
<ul style="list-style-type: none"> Provide organised study material (book)
<ul style="list-style-type: none"> There should be A system where students can express their grievances or complaints.

<ul style="list-style-type: none"> • Reducing the amount of extra curricular activity apart from the main course provided should be done. For example, the course done with VanillaKart shouldn't have been compulsory as not everyone wants to know how to run a business. Instead of it, we could've had physical education which would've been more beneficial in general
<ul style="list-style-type: none"> • Unnecessary courses like vanillakart and all should be removed because it's just a headache to students.
<ul style="list-style-type: none"> • 1 canteen near college with all variations of food.
<ul style="list-style-type: none"> • There are many places in college where the network isn't good can work on that.

<ul style="list-style-type: none"> • Maybe not all the students aren't get going to get involved into all the activities while some would not miss any. This brings the question of how hesitation works overall in almost 3 out of 5 students. Maybe more impetus must be given in the personality and EQ development of a student so that one must be more confident and a better intent be shown while facing the forecoming challenges and opportunities awaiting at the other end of the studentship. The current department which is dedicated for the same is excellent... Just that the reach must be enhanced in my opinion. Thank you.
