

## Infrastructure Committee

### Objectives of the Committee

1. To review the existing infrastructure requirements on regular bases and ensure their follow up for smooth execution.
2. To create an encouraging environment for students, so they remain focused on the pursuit of knowledge and improvement of their skills.
3. To suggest renovations that would cater the future plans of educational activities.
4. To act as a communication link between student community and administrative maintenance bodies.
5. To interact with college committees and dedicate specific areas for their activities throughout the year.
6. To plan and execute sustainable solutions for waste management, optimum utilization of space and energy, and make the time spent in the college / campus a pleasant experience for both staff and students.
